EXPERIENCE

- **Banque de Tunisie et des Émirats (BTE), Tunisia** *Feb 2026 – Present*
 - Delivered a full-stack governance portal (Django REST backend + Next.js frontend) with analytics, guardrails, and campaign management, deployed across 12 Docker/systemd services.
 - Architected a real-time WebSocket-based voice gateway (FastAPI) integrating telephony infrastructure (FreeSWITCH SIP/RTP) with backend services, achieving sub-1.1 s round-trip latency.
 - Built and maintained integration layers to EspoCRM (auth, data sync, task delegation) and a Cerebras LLM API, with 135/138 deployment validation checks passing.
 - Owned the full software delivery cycle: backend API design, frontend implementation, containerized deployment, and test-driven validation (69 automated dialogue tests, 65-case adversarial suite).
- **MyAI Pathways, Remote (USA)** *Oct 2025 – Dec 2025*
 - Developing a full-stack AI readiness assessment tool (LangChain backend, Next.js frontend) for evaluating enterprise AI integration potential.
- **Inetum, Tunisia** *Jul 2025 – Sept 2025*
 - Developed a TypeScript-based mobile application providing seamless ERP (Sage X3) access.
 - Built a backend AI agent with SQL and CSV data-processing endpoints for ERP support automation.
- **MEDIANET, Tunisia** *Feb 2023 – Jun 2023*
 - Led full-stack development of a MERN & Flutter-based reward system with real-time notifications and gamification.
 - Designed a user analytics dashboard using Chart.js and MongoDB aggregations.
 - Established a CI/CD pipeline with GitHub Actions, reducing deployment time by 90%.

KEY PROJECTS

- **E-Commerce Site (Angular/PHP):** Created a full-stack solution with JWT authentication, dynamic dashboards, and inventory management.
- **LABLAB.AI Hackathon: Language Learning Platform:** Developed a full-stack, GPT-4-powered platform using Flask, MongoDB, and Docker for language proficiency.
- **RAG AI Resume Matcher & Skill Coach:** Built a full-stack application (FastAPI + Flask) for resume matching, skill grading, and learning-path generation.
- **Exaq OCR Assistant:** Built an intelligent document processor with YOLOv13 and TrOCR, achieving 97% accuracy on handwritten and printed text, reducing data entry time by 85%.
- **MLOps Pipeline:** Implemented experiment tracking with MLflow, model versioning via DVC, and containerized deployments with Docker.

EDUCATION

- **ESPRIT, Tunisia** – Data Science Engineering (Final Year) *2023 – 2026*
- **ISTIC, Tunisia** – Research MSc in Robotics *2023 – 2025*
- **ISTIC, Tunisia** – BSc Software Engineering *2022 – 2023*
- **Lycée Ibnou Rachik** – Baccalaureate in Technical Sciences *2020*

SKILLS & CERTIFICATIONS

Skills:

Frameworks/Libraries: React, Angular, Flutter, Next.js, Express, Laravel, Django, Flask, Tailwind CSS, FastAPI

Programming Languages: JavaScript (Node.js, React, Angular), Python, PHP, SQL, Bash

Databases: MongoDB, MySQL, SQLite

DevOps: Docker, GitHub Actions, CI/CD, Nginx

Certifications:

Cisco AI Fundamentals, NVIDIA LLMs, Datacamp ML/AI Stack

Languages:

Arabic, French, English
